The 2nd Emirates EDUCATION Week:
A Master Course in Modern Evidence Based Implant Dentistry
Focusing on Surgery & Prosthetics Aspects
Le MERIDIEN Airport Hotel
This one week course, taking place in Dubai one of the most international metropole in the United Arab Emirates and addresses the experienced general practitioner and the specialist in Periodontology and Implant Dentistry.

The concept of modern comprehensive treatment planning, based on the evidence obtained in dental research in the last decades, will be presented. Case presentations, group work and discussions will be carried throughout the course in order to train the participants in setting up comprehensive treatment plans, using dental implants.

Besides the theoretical part, live surgeries will be performed. Modern periodontal regenerative procedures and modern plastic periodontal surgery, utilizing the latest developments in microsurgical techniques and materials will be addressed. Moreover, live implant surgeries with and without guided bone augmentations (GBR) in the aesthetic zone and implant surgery in the posterior maxilla in conjunction with sinus floor elevation will be performed. The participants will have the possibilities to practice these techniques in several hands-on exercises.

Prosthetic rehabilitation of partially and totally edentulous patients with dental implants and how optimal aesthetic results can be achieved in post extraction sites utilizing new materials will be discussed.

After this course, participants will not only be up-to-date in periodontal regeneration, implant dentistry and bone augmentation procedures but they will have also seen some of the wonders that the Emirates have to offer and experience the legendary Arabic hospitality.
